FORMATRAC® BENDABLE TRACK

Some Situations Demand Flexibility

inpro.

INTERIOR AND EXTERIOR ARCHITECTURAL PRODUCTS

○ The Formatrac® Advantage

Eliminate the hassle associated with traditional track installation and design with Formatrac® Bendable Track. Formatrac easily bends by hand on-site for simple installation. Additionally, because of its flexible nature, Formatrac can accommodate virtually any design.

It's Easy to Ship and Install

- Standard track lengths allow for virtually any design or radius bend required and eliminates the need for splices.
- Easily cut on-site by hand.
- Simple installation by snapping track into grid clips.
- Versatility with virtually any ceiling type, including hard ceiling as well as tegular and flush ceiling tile.
- All four standard track lengths ship via UPS ground, not bulk freight.
- End caps don't have to be removed to add or remove carriers.
- Four standard track lengths available:
CE200008 - 8' (2.44m), CE200016 - 16' (4.88 m), CE200040 - 40' (12.19m) and CE200105 - 105' (32m) rolls.
- Patented track and carriers slide quietly across track and have a peak load of over 50 lbs. (22 kg.).

It's Quiet

- Independent testing has shown significant decibel reduction with Formatrac® vs standard aluminum track equating to over 50% reduction of noise.
