# Traverse Installation

① Mount wall brackets (A) to wall with appropriate hardware for wall type.

② Remove plastic Rod clip (B) and slide on bracket cover plate (C), magnet will hold it in place.
③ Place decorative wood Rod (D) over bracket arms making sure bracket arm is pushed as far forward as possible into center of wood Rod . Then attach Rod to bracket with included small wood screws.
④ Place metal track (E) under lip of bracket arm and secure with plastic Rod clip (B).
⑤ Load either ball bearing carriers (F) for Pinch Pleat or corded Ripplefold™ carriers (G) for Ripplefold™ treatment.

⑥ Insert end stop (H) for Pinch Pleat or (I) for Rippplefold™ into metal track and tighten screw.

⑦ Screw finial (J) into center of wood Rod.
